

AI: The Future Is Not Now

AI的未來: 還不是時候

The promise of AI is everywhere, but what can AI do for us today that we cannot do better ourselves? This workshop confronts expectations versus reality – and the future of AI in academia and beyond...

- 1、 *AI in Education: A Skeptical View*
- 2、 *The Computational Arms Race and Nvidia*
- 3、 *Human-AI Co-Creation: Guidelines for Academics*
- 4、 *Conclusion: AI in Practice and the Future*
